WE

**inspire hope.
create possibilities.
support people in
finding their purpose.**

We are committed to creating a new recovery model of care for substance use disorders and the possible co-occurring mental health disorders.

We believe treatment should include a safe environment with long term attention for success.

We know there are multiple pathways to recovery. Everyone has different needs.

We understand that a person needs the time to learn and implement the tools necessary to build a strong future.

We are bringing together all of these resources to empower Connecticut with a new program for people in recovery to thrive in life.
